Independent Accountant's Review Report

To the Board of Commissioners
Claiborne Parish Watershed District

We have reviewed the accompanying financial statements of the Claiborne Parish Watershed District, component unit of Claiborne Parish Police Jury, as of and for the year ended December 31, 2010, which collectively comprise the District's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of the management of the Claiborne Parish Watershed District. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

The management of the Claiborne Parish Watershed District is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

Our responsibility is to conduct the review in accordance with *Statements on Standards for Accounting and Review Services* issued by the American Institute of Certified Public Accountants. Those standards require us to perform procedures to obtain limited assurance that there are no material modifications that should be made to the financial statements. We believe that the results of our procedures provide a reasonable basis for our report.

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis on pages 7 through 9 and budgetary comparison information on page 12 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. Such information has not been subjected to the inquiry and analytical procedures applied in the review of the basic financial statements, but was compiled from information that is the representation of management, without audit or review. Accordingly, we do not express an opinion or any other form of assurance on the supplementary information.

In accordance with the *Louisiana Governmental Audit Guide* and the provisions of state law, we have issued a report dated June 29, 2011, on the results of our agreed-upon procedures.

Independent Accountant's Report on Applying Agreed-Upon Procedures

To the Management of
Claiborne Parish Watershed District

We have performed the procedures included in the *Louisiana Government Audit Guide* and enumerated below, which were agreed to by the management of Claiborne Parish Watershed District and the Legislative Auditor, State of Louisiana, solely to assist the users in evaluating management's assertions about Claiborne Parish Watershed District's compliance with certain laws and regulations during the year ended December 31, 2010, included in the accompanying *Louisiana Attestation Questionnaire*. This agreed-upon procedures engagement was performed in accordance with standards established by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards*. The sufficiency of these procedures is solely the responsibility of the specified users of the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Public Bid Law

1. Select all expenditures made during the year for material and supplies exceeding \$20,000, or public works exceeding \$100,000, and determine whether such purchases were made in accordance with LSA-RS 38:2211-2251 (the public bid law).

We noted public works expenditures of \$420,162 for Permanent Channel Markers. These expenditures were included in the contract bid in the prior year. The District properly advertised and awarded the contract to the only bidder.

Code of Ethics for Public Officials and Public Employees

2. Obtain from management a list of the immediate family members of each board member as defined by LSA-RS 42:1101-1124 (the code of ethics), and a list of outside business interests of all board members and employees, as well as their immediate families.

Management provided us with a list for five out of seven board members. The list did not include any spouses of children/stepchildren or any siblings or spouses of siblings.

3. Obtain from management a listing of all employees paid during the period under examination.

The District had one employee during 2010.

4. Determine whether any of those employees included in the listing obtained from management in agreed-upon procedure (3) were also included on the listing obtained from management in agreed-upon procedure (2) as immediate family members.

The only employee was not listed as an immediate family member in the listing of board members' families.

Budgeting

5. Obtained a copy of the legally adopted budget and all amendments.

Management provided us with a copy of the original budget and the amended budget. There was one amendment during the year.

6. Trace the budget adoption and amendments to the minute book.

We traced the adoption of the original budget to the minutes of a meeting held on December 10, 2009.

7. Compare the revenues and expenditures of the final budget to actual revenues and expenditures to determine if actual revenues failed to meet budgeted revenues by 5 % or more or if actual expenditures exceed budgeted amounts by 5% or more.

We compared the revenues and expenditures of the final budget to actual revenues and expenditures. Actual revenues failed to meet budgeted revenues by 15%. Actual expenditures were less than budgeted amounts by less than 1%. The variance in revenue is due to grant receivables not being budgeted as revenue until the year received.

Accounting and Reporting

8. Randomly select 6 disbursements made during the period under examination and:

- a. Trace payments to supporting documentation as to proper amount and payee;

We examined supporting documentation for each of the six selected disbursements and found that payment was for the proper amount and made to the correct payee.

- b. Determine if payments were properly coded to the correct fund and general ledger account; and

All of the payments were properly coded to the correct fund and general ledger account.

- c. Determine whether payments received approval from proper authorities.

All checks for the six selected disbursements were signed by two board members.

Meetings

9. Examine evidence indicating that agendas for meetings recorded in the minute book were posted or advertised as required by LSA-RS 42:1 through 42:12 (the open meetings law).

Claiborne Parish Watershed District is only required to post a notice of each meeting and the accompanying agenda on the door of the district's office building. Notice of each meeting is published in the upcoming events section of the local newspaper and the agenda is posted at the meeting place. The District maintains a file of agendas that include notations of posting dates.

Debt

10. Examine bank deposits for the period under examination and determine whether any such deposits appear to be proceeds of bank loans, bonds, or like indebtedness.

We inspected copies of all bank deposit slips for the period under examination. We noted no deposits that included any proceeds.

Advances and Bonuses

11. Examine payroll records and minutes for the year to determine whether any payments have been made to employees which may constitute bonuses, advances, or gifts.

We read the minutes of the district for the year indicated and noted no approval for the payments noted. We reviewed payroll records and noted no payments made.

Our prior year report, dated June 30, 2010, included the following comment: "Actual revenues and other sources and expenditures for the year exceeded budgeted amounts by 55% and 229%, respectively. The board did not budget \$300,000 in other sources for the issuance of certificates of indebtedness or \$143,000 in expenditures for the permanent channel markers". The condition is not cleared. See item 7 above.

We were not engaged to, and did not, perform an examination, the objective of which would be the expression of an opinion on management's assertions. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the use of management of Claiborne Parish Watershed District and the Legislative Auditor, State of Louisiana, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Management's Discussion and Analysis
December 31, 2010

As management of the Claiborne Parish Watershed District, we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the year ended December 31, 2010. We encourage readers to consider the information presented here, in conjunction with the basic financial statements, and the supplementary information provided in this report in assessing the efficiency and effectiveness of our stewardship of public resources.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (for example, earned but not taken annual leave).

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the current funds of the District are included in one category - governmental funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the year. Such information may be useful in evaluating a government's near-term financing requirements.

Management's Discussion and Analysis
December 31, 2010

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Government-wide Financial Analysis. As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. The following tables focus on net assets and changes in net assets for the District's governmental activities.

Management's Discussion and Analysis
December 31, 2010

Liabilities include accounts payable and certificates of indebtedness. Assets include cash and equivalents and sales taxes receivable.

Financial Analysis of the Government's Funds. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the governmental fund (General Fund) is to provide information on near-term revenue, expenditures, and balances of expendable resources. This information is used in assessing the financing requirements of the District. Unreserved fund balances may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of December 31, 2010, the General Fund fund balance of \$836,574 showed a decrease of \$68,524 over December 31, 2009's restated amount.

Budgetary Highlights

The District made one amendment to the 2010 budget. The original adopted budget reflected revenues and expenditures of \$541,800 and \$476,150, respectively. Prior to year end adjustments, actual amounts were well within budgeted amounts. The final budget reflected revenues of \$541,800 and expenditures of \$532,150.

Economic Factors and Next Year's Budgets

The District's financial plan for this upcoming year is well underway since the adoption of a realistic budget that meets the District's needs while protecting the long-term financial stability of the District.

Requests for Information

This financial report is designed to be a summary of the District's finances. If there are any questions regarding any information, a request can be made in writing to the Claiborne Parish Watershed District, at P.O. Box 266, Homer, Louisiana 71040.

**NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2010**

Introduction

Claiborne Parish Watershed District (the District) was created in 1966 by Louisiana Revised Statute 38:2861, et. seq. The District is governed by a seven member board of commissioners, appointed by the Claiborne Parish Police Jury. Commissioners serve four-year terms without compensation. At this time, the District has one employee.

The District is responsible for Claiborne Parish including Lake Claiborne. The District's purpose is the conservation of soil and water, including surface and groundwater, and developing the natural resources and wealth of the district for sanitary, agricultural, industrial, and recreational purposes, as the same may be conducive to the public health, safety, convenience, or welfare or of public utility or benefit.

Reporting entity

As the governing authority of the parish, for reporting purposes, the Claiborne Parish Police Jury is the financial reporting entity for Claiborne Parish. The financial reporting entity consists of (a) the primary government (police jury), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board (GASB) Statement No. 14 establishes criteria for determining which component units should be considered part of the Claiborne Parish Police Jury for financial reporting purposes. The basic criteria for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

1. Appointing a voting majority of an organization's governing body, and;
 - a. The ability of the police jury to impose its will on that organization and/or;
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the police jury.
2. Organizations for which the police jury does not appoint a voting majority but are fiscally dependent on the police jury.
3. Organizations for which the reporting entity's financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

See accountant's report.

Reporting entity (Continued)

Because the police jury appoints the board of commissioners and the District provides services to all residents of Claiborne Parish, the Claiborne Parish Watershed District was determined to be a component unit of the Claiborne Parish Police Jury, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the District and do not present information on the police jury, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the District. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The District has no business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. All individual governmental funds and individual enterprise funds are reported as separate columns in the fund financial statements. The District has only a General Fund.

See accountant's report.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Sales taxes, franchise taxes, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The Claiborne Parish Watershed District reports only a General Fund at this time. The General Fund is the entity's operating fund. It accounts for all financial resources of the entity.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with, or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

When both restricted and unrestricted resources are available for use, it is the entity's policy to use restricted resources first, then unrestricted resources as they are needed.

Cash and cash equivalents

The entity's cash and cash equivalents consist of cash on hand and demand deposits. As management does not consider certificates of deposit or short-term investments to be readily available, these instruments are not considered cash equivalents.

Investments

State law and the Claiborne Parish Watershed District's investment policy allow the entity to invest in collateralized certificates of deposits, government backed securities, commercial paper, the state sponsored investment pool, and mutual funds consisting solely of government backed securities. At December 31, 2010, investments consist solely of certificates of deposit.

Measurement focus, basis of accounting, and financial statement presentation (continued)

Receivables and payables

All receivables are considered to be collectible; therefore, no provision for uncollectible amounts is made.

Long-term debt

In the government-wide financial statements, long-term debt, such as certificates of indebtedness are reported as liabilities in the applicable governmental activities. In the fund financial statements, governmental fund types recognize long-term debt only to the extent that they will be paid with current resources.

Sales taxes

The District has a .125 percent sales and use tax, which was passed by the voters for a period of seven years beginning January 1, 2007 to fund the operations of the District. The Claiborne Parish School Board serves as the collection agency for the parish. The school board's tax department provides collection services for a fee of three percent of amounts actually collected.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

Reconciliations of government-wide and fund financial statements

The reconciliation of the items reflected in the fund statements to the government-wide statements is as follows:

Fund balance	\$836,574
Long-term liabilities, such as certificates of indebtedness, are not due and payable in the current period and are therefore not reported in the governmental fund balance sheet.	<u>(244,000)</u>
Net assets of governmental activities	<u>\$ 592,574</u>

Net change in fund balance \$ (68,524)

The governmental funds report the retirement of long-term debt as an expenditure. However, in the government-wide financial statements, that amount representing principal on long-term debt is not treated as an expense but is instead applied against outstanding long-term debt on the Statement of Net Assets.

NOTE B - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Prior to November 30th, the Treasurer submits to the Board a proposed operating budget for the ensuing year. A public hearing is conducted in December to obtain taxpayer comment and the budget is legally adopted. Appropriations lapse at the end of each fiscal year.

NOTE C - CASH AND CASH EQUIVALENTS

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District's policy to ensure that there is no exposure to this risk is to require each financial institution to pledge its own securities to cover any amount in excess of Federal Depository Insurance Coverage. Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the District that the fiscal agent bank has failed to pay deposited funds upon demand. Accordingly, the District had no custodial credit risk related to its deposits at December 31, 2010.

Under state law, the District may deposit funds in demand deposits, interest bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having principal offices in Louisiana. At December 31, 2010, the District has demand deposits (book balances) totaling \$280,539.

These deposits are stated at cost, which approximates market. Cash and cash equivalents (bank balances) at December 31, 2010, are \$280,489. As of December 31, 2010, the District's deposits are secured by federal deposit insurance.

NOTE D - RECEIVABLES

The receivables of \$106,635 at December 31, 2010, consist of sales taxes receivable.

NOTE E - LONG-TERM DEBT

The following is a summary of long-term debt transactions for the year ended December 31, 2010:

Long-term debt at January 1st	\$ 300,000
Reductions	<u>(56,000)</u>
Long-term debt at December 31st	<u>\$ 244,000</u>

Outstanding certificates of indebtedness consist of the following individual issues:

Certificates of Indebtedness - \$300,000 issued April 6, 2009, due in annual
installments of \$9,000 to \$55,000 through March 1, 2014, interest at 3.9% per annum. \$ 244,000

The annual requirements to amortize all certificates of indebtedness outstanding at December 31, 2010, are as follows:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2011	\$ 58,000	\$ 7,248	\$ 65,248
2012	60,000	5,273	65,273
2013	62,000	3,219	65,219
2014	64,000	1,086	65,086
	<u>\$ 244,000</u>	<u>\$ 16,826</u>	<u>\$ 260,826</u>

NOTE F - RISK MANAGEMENT

The District is exposed to risks of loss in the normal course of business for which it purchases commercial insurance policies. There have been no significant reductions in insurance coverage from coverage in the prior year by major categories of risk and no settlements exceeded insurance coverage for each of the past three fiscal years.

NOTE G - CONTINGENT LIABILITIES

The District is not involved in any litigation as of December 31, 2010.

See accountant's report.

NOTE H - PRIOR PERIOD ADJUSTMENT

An adjustment of \$77,272 was made to the fund balance and net assets at December 31, 2009, in order to report grant revenue in the proper period.

	Fund Balance	Net Assets
Fund balance/net assets as of December 31, 2009	\$ 827,826	\$ 527,826
Adjustment	77,272	77,272
Restated fund balance/net assets	<u>\$ 905,098</u>	<u>\$ 605,098</u>

NOTE I - NEW ACCOUNTING STANDARD

The requirements of Governmental Accounting Standards Board Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, are effective for the District's financial statements for the year ending December 31, 2011. The District has not yet determined the effect that implementation of the requirements of the statement will have on its financial statements.

NOTE J - SUBSEQUENT EVENTS

Management has evaluated subsequent events through June 29, 2011, the date on which the financial statements were available to be issued.

See accountant's report.

Re: Corrective Action Plan

We respectfully submit the following corrective action plan in response to the results of your agreed-upon procedures:

Code of Ethics

We will ensure that the data submitted in the future is complete and clear as to inapplicable items. We are not aware of any transactions with any related parties.

Budgeting

We included grant revenues in the budget in 2010 but the revenues were required under GAAP to be reported in 2009. Trying to avoid this issue during 2009, we did not include the revenues in the 2009 budget for fear they would not be collected within 60 days. If that had happened, the revenue would not have been recognized in 2009. We will always endeavor to budget in accordance with GAAP.

Respectfully,

Dr. Robert Haynes, Chairman
